Shashank Pathak

+91 9039501073 — shashank.8pathak@gmail.com — LinkedIn — GitHub

Professional Summary

Computer Science undergraduate focused on backend development, developer tools, and open-source software. Experienced in building full-stack applications, REST APIs, and automation solutions using Python, JavaScript, Node.js, and MongoDB.

Education

Indore Institute of Science and Technology Aug 2023 – Present
Bachelor of Technology in Computer Science and Engineering CGPA: 7.04

Class XII - New Pithampur Public Senior Secondary School 80%

Class X - New Pithampur Public Senior Secondary School 89%

Experience

GirlScript Summer of Code (GSSoC) May 2026 – Present
Open Source Contributor Profile

- Contributed to open-source repositories through feature implementation, bug fixes, documentation improvements, and collaborative GitHub workflows.
- Worked with maintainers and contributors by resolving issues, submitting pull requests, and incorporating code review feedback.
- Strengthened practical experience in version control, collaborative software development, and open-source contribution practices.

Projects

AI Duplicate Issue Detector Live — GitHub

Python, OpenAI API, Pinecone, GitHub Actions, Docker

- Built an automated duplicate-issue detection system that uses semantic embeddings and vector similarity search to identify related GitHub issues beyond keyword matching.
- Integrated OpenAI embeddings with Pinecone vector search to retrieve semantically similar issues and assist maintainers during issue triage.
- Developed a GitHub Actions workflow that processes issue events, performs similarity analysis, and posts automated duplicate-detection reports.

Chess Analyzer Live — GitHub

JavaScript, Stockfish.js, chess.js, chessboard.js, HTML, CSS

- Developed a browser-based chess analysis application by integrating the Stockfish engine for real-time position evaluation and best-move recommendations.
- Implemented PGN parsing, move validation, game-state detection, and interactive board controls using chess.js and chessboard.js.
- Utilized Web Workers to run engine analysis asynchronously and maintain a responsive user experience during computation.

LearnedUp GitHub

React.js, Node.js, Express.js, MongoDB, REST APIs

- Contributed to the development of a full-stack learning management platform focused on structured content delivery and student engagement.
- Worked on backend APIs, database integration, and application functionality using the MERN stack.
- Collaborated within a team environment using Git and GitHub workflows for feature development and project management.

Technical Skills

Languages: Python, C++, C, JavaScript
Frontend: HTML, CSS, React.js
Backend: Node.js, Express.js, REST APIs
Databases: MongoDB, MySQL
Tools: Git, GitHub, Docker
Core Concepts: Data Structures and Algorithms, Object-Oriented Programming, Database Management Systems, Operating Systems

Certifications

Cisco Python Essentials 1 — Cisco Python Essentials 2 — Cisco Networking
